 - 7) Local, regional, state, and national involvement in professional organizations.

Duties:

The primary professional responsibilities of instructional faculty members are: teaching, research, scholarship and/or creative activity, and service to the University, profession and to the community. These responsibilities generally include: advising students, participation in campus and system-wide committees, maintaining office hours, working collaboratively and productively with colleagues, and participation in traditional academic functions.

The Assistant Professor of Mathematics Education will collaborate with faculty across the Charter College of Education and the University, teach mathematics education courses at the undergraduate and graduate levels (credential and Master's), supervise and assist with field experiences and student teaching, ground teaching in supporting students as they prepare for state and national assessments (CSET, edTPA), maintain an active research agenda (including publications, professional presentations, and external grant proposals), model effective teaching practices, use instructional technology effectively, and participate in program development and recruitment. Our program is accredited by the California Commission on Teacher Credentialing (CTC).

The successful candidate will be committed to the academic success of all of our students and to an environment that acknowledges, encourages, and celebrates diversity and differences. To this end, the successful candidate will work effectively, respectfully, and collaboratively in diverse, multicultural, and inclusive settings. In addition, the successful candidate will be ready to join faculty, staff, students, and administrators in our University's shared commitment to the principles of engagement, service, and the public good.

Salary:

Initial salary is commensurate with qualifications and experience.
