

California State University, Fresno
Kremen School of Education & Human Development
Curriculum and Instruction
Vacancy # 13617
www.fresnostate.edu/kremen/

Title: STEM Education
Rank: Assistant Professor
Status: Tenure Track
Start: Fall 2019 (August 2019)

Position Summary:

The Department of Curriculum and Instruction at California State University, Fresno seeks a creative and innovative STEM educator for a tenure-track, academic year faculty position at the rank of Assistant Professor. Fresno State is committed to serving our region's culturally and ethnically diverse student population by providing cutting-edge and collaborative teacher preparation programs and advanced educational opportunities for PreK-12 educators. For this position, teaching our elementary mathematics pedagogy course will be expected. Depending on areas of interest/expertise and departmental needs, opportunities may be available to teach credential and graduate courses in elementary science pedagogy, interdisciplinary curriculum design for PK-8 classrooms, educational psychology, or educational technology.

In addition to teaching credential and graduate courses, our faculty are expected to be actively engaged in scholarship--research, writing for publication, presenting at conferences, and writing grant proposals. Service benefiting the department, school, university, community, and profession is also an important faculty expectation.

Qualifications:

Required Education:

The successful candidate must hold a doctorate with an emphasis in mathematics education, science education, or STEM education. Candidates nearing completion of the doctorate (ABD) may be considered; however, the doctorate must be completed by 16 August 2019.

Required Qualifications:

- Experience with and a commitment to designing STEM-related curriculum that is interdisciplinary, project-based, and culturally responsive/relevant to the population of students served
- Precollegiate mathematics teaching experience

Preferred Qualifications:

1. A record of research and scholarship in an area related to mathematics/science/STEM education
2. Demonstrated K-12 teaching excellence in a STEM subject matter area
3. Experience in grant development, writing, and procurement
4. Active involvement in professional organizations related to mathematics, science, and/or STEM education
5. Experience teaching PreK-8 learners in informal educational settings and/or in providing professional development for PreK-8 teachers
6. Facility with instructional technologies
7. Experience working in an interdisciplinary team on a project or grant application
8. In-depth understanding of curriculum theories and multiple pedagogical approaches

Application Procedures:

Review of applications will begin on 11 January 2019. The committee may not review applications submitted after this date. The position automatically closes on 1 May 2019. Apply online at: <http://jobs.csufresno.edu>

To apply, complete an online application at <http://jobs.fresnostate.edu> and attach the following materials:

- Cover letter addressing the required and preferred qualifications, as well as your philosophy of teaching
- A statement of your commitment to working with faculty, staff, and students from diverse ethnic, cultural, and socioeconomic backgrounds
- Curriculum vitae
- Names and contact information (including affiliations, phone numbers, and email addresses) for three references
- Unofficial graduate transcripts (dated within 12 months of consideration date)

Only applicants who are finalists and invited for an on-campus visit will be required to submit the three current letters of recommendation and official transcripts. The search committee chair will send a request for these items and provide a deadline for submission.

For inquiries, contact Dr. Carol Fry Bohlin, STEM Education Search Committee Chair; Kremen School of Education and Human Development; California State University, Fresno; 5005 N. Maple Ave., M/S ED 2; Fresno, CA 93740-8025 • Phone: (559) 278-0237; Email: carolb@csufresno.edu.

About the College and Department:

The mission of the Kremen School of Education and Human Development is the recruitment and development of ethically informed leaders for classroom teaching, education administration, counseling, and higher education. This award-winning, NCATE-accredited unit fosters the following candidate dispositions: collaboration, critical thinking, valuing diversity, ethical judgments, reflection, and life-long learning. Our mission is realized through a framework of teaching, scholarship, and service that addresses regional, state, national, and international perspectives. Kremen programs are highly engaged in partnerships with schools in our diverse region, as well as with faculty in other colleges/schools across the campus. Grants such as the Mathematics and Science Teacher Initiative (MSTI) support numerous mathematics and science PreK-12 teacher preparation efforts across the campus. The San Joaquin Valley Mathematics Project is also housed in the Kremen School and has been providing cutting edge PreK-12 professional development to teachers in the region for three decades. The Office of Community Based Learning coordinates afterschool and summer STEM experiences for thousands of students in Fresno State's service region. The Joyce Huggins Early Education Center provides outstanding, research-based education for infants, toddlers, and preschoolers. A STEAM Innovation Preschool is in development and reflects the school's commitment to STEM education.

About Fresno State:

California State University, Fresno is an engaged University. We focus on broadening students' intellectual horizons, fostering lifelong learning skills, developing the leaders of tomorrow, promoting community involvement, and instilling an appreciation of world cultures.
